## Elizabeth Lucas Showcases New & Popular Products at NYIGF

### Mixed-Media Print Company Returning to New York with New Chair Cushions

The Elizabeth Lucas Company will return for the third year to the New York International Gift Fair. This year, they're coming with a brand-new product.

#### New Chair Cushions

Attendees will be the first to see new Elizabeth Lucas chair cushions (such as "Seguy 2" to the right). Many of these cushions display "antique scientific" illustrations from the 1800s: birds, botanicals, sea life and other animals. The rest use a "new vintage" style introduced by the company's Multi-Layer Print artwork. The chair cushions are intended as furniture accents. Like its other pillows, these are 90/10 down, and handmade in the USA.

#### Now at Neiman-Marcus

We are excited to announce that Neiman-Marcus will carry Elizabeth Lucas pillows, including one of our favorites (below), Thoroughbred.

"Thoroughbred" 28" x 18" Down-Filled Burlap Pillow (© 2011)

#### Green-Friendly Artwork

Elizabeth Lucas takes care to stay green-conscious for all of its art, and furniture pieces. For example, one of the most popular ELC pieces is "Riding the Vineyard." It's a 36" x 54" wall print made with recycled cardboard.

And before you think recycled cardboard can't make for good design – the piece was featured in Country Living's "House of the Year 2010" project. "Riding the Vineyard" hung on the wall of a custom-built green home at New York's World Financial Plaza.

**The Elizabeth Lucas Company will be at Pier 94, Booth 48042, at the NYIGF. Please stop by!**

Visit The Elizabeth Lucas Company at [www.elizabethlucascompany.com](http://www.elizabethlucascompany.com) for art examples & a price list.

Images of the prints and pillows mentioned above, or from The Elizabeth Lucas Company website, may be obtained by email through PlanetMagpie. Please email [doreyne.douglas@planetmagpie.com](mailto:doreyne.douglas@planetmagpie.com) with your request.
